

REMARKS

The above amendments to the claims are specifically directed to obviating the Section 112 rejections of numbered paragraphs 1 and 2 of the Official Action of December 29, 2006.

It is noted from numbered paragraph 8 of the Official Action, that claim 2 would be allowable pending overcoming the rejections under Section 112. Accordingly, the subject matter of claim 2 is herewith included in claim 1, such that claim 1 should now be allowable. All of the other claims in the application depend from and include the subject matter of at least claim 1, as amended, so all of this application should now be allowable.

In view of the comments of the Examiner, in numbered paragraph 9 of the Official Action, and the indicated allowability of the subject matter of claim 2 of numbered paragraph 8 of the Official Action, it is submitted that no detailed further discussion of the cited art should be necessary.

Entry of the amendment and an early Notice of Allowance is respectfully solicited.
